DETAILED ACTION

1. This action is responsive to communications: original application filed 03/07/2000.
2. Claims 9-31 are currently pending in this application. Claims 9,17-18, 22 and 25 are independent claims.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 9-24 drawn to a method for annotating a Web-based document and viewing the annotated document, classified in class 715, subclass 512.
 - II. Claims 25-31 drawn to a method of utilizing a predetermined gesture to perform desired actions upon a Web-based document, classified in class 345, subclass 863.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as annotating a Web-based document and viewing the annotated document and invention II has separate utility such as utilizing a predetermined gesture to perform desired actions upon a Web-based document. See MPEP § 806.05(d).
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
